**Sub: - Selection for formation of a panel to Group "B" post of AEN/AXEN against 30% LDCE quota (4<sup>th</sup> Cycle) of Civil Engineering department on SECR**

- Ref: -1. This office letter No. P-HQ/CON/452/1/E/603 Dated 12.12.2013  
2. This office letter No. P-HQ/CON/452/1/E/353 Dated 09.12.2014  
3. This office letter No. P-HQ/CON/452/1/E/17 Dated 13.01.2015  
4. This office letter No. P-HQ/CON/452/1/E/20 Dated 14.01.2015  
5. This office letter No. P-HQ/CON/452/1/E/59 Dated 13.02.2015  
6. This office letter No. P-HQ/CON/452/1/E/291 Dated 08.10.2018  
7. This office letter No. P-HQ/CON/452/1/E/305 Dated 29.10.2018

1. In continuation of the references quoted above, the Written Examination, in connection with the subject selection, which was postponed, vide this office letter No.P-HQ/CON/452/1/E/305, Dated 29.10.2018, **is now scheduled to be held on 03.02.2019 (Sunday)**, at the venue and as per the programme given below:-

Venue:- South East Central Railway Mixed Higher Secondary School No.01, Bilaspur (near Railway Post Office),				
Date	Time	Subject	Full Marks	Qualifying Marks
<b>03.02.2019</b> <b>(SUNDAY)</b>	10:00 hrs to 13:00 hrs	Paper-I (Professional subject & General Knowledge)	150	90
	14:30 hrs to 17:30 hrs	Paper-II (Professional subject, Establishment Rules & Finance Rules.	150	90

**In terms of Railway Boards letter No.E(GP)88/2/111 dated 20.08.91 and para 10.2 (A) I Note (i) of Master Circular No.68, out of 150 marks, the questions relating to professional subject will carry at least 100 marks in each paper.**

**It is to be noted that being an LDCE, no supplementary written examination will be held under any circumstances.**

2. A provisional list of willing and eligible candidates (**excluding those who have since retired /retiring by 31.01.2019 on superannuation**), arranged in alphabetical order (not in the order of seniority) is enclosed as **Annexure 'A'**. **In case any candidate is found ineligible for the above selection at any stage, his/her candidature will be rejected.** Candidates may be directed to report to the Presiding officer on the scheduled date, venue half an hour before start of the examination with their identification memo. The format of identification memo is enclosed as **Annexure 'B'**. It may be noted that individual identification memo should be given to each candidate.

3. In case any candidate is on leave or on deputation to other Railways/Units or is on sick list, the controlling officer concerned should send necessary advice to the authority under which he is working or the medical authority as the case may be and an acknowledgement obtained to avoid any future complication on this issue.

4. The concerned Dy.CPOs/Sr DPOs/Sr DENs/WPOs shall ensure that this notification is brought to the notice of all eligible candidates/employees working in their respective units.

5. The Controlling Officers, Dy CPOs/Sr DENs/ Sr.DPOs/WPOs should ensure that last 05 years ACRs /APARs of the candidates who have volunteered to appear in the written examination, complete in all respects are ready along with their updated SRs, which are to be sent to SPO (Gaz) at short notice as and when called for.

6. In case of the candidates [listed in Annexure 'A'] who have been transferred to other station of SECR or have been sent on deputation etc in the interregnum, the concerned Controlling Officer/ Personnel Officer are advised to intimate such the candidates suitably, under intimation to this office. However, where the lien of such candidates has been transferred out of SECR, this office may kindly be advised immediately for further action.

7. In terms of Railway Board letter No.E(GP)2008/2/6 dated 09.08.2012 (RBE No. 88/2012) circulated vide CPO/SECR's Estt Rule No.20/2014, revised syllabus for Professional papers, Establishment & Finance Rules for LDCE for promotion from Group "C" to Group "B" posts in Civil Engineering department is enclosed in Annexure 'C', which may be circulated widely. This syllabus is indicative and not necessarily exhaustive.

8. This is the 4<sup>th</sup> Cycle of Gazetted Group "B" selection for Civil Engineering department being notified for SEC Railway. It is made clear that employees concerned should clearly satisfy themselves regarding their eligibility, grade, length of non-fortuitous service and holding lien in SEC Railway. Provisional consideration for selection based on available records, will not preclude summarily debarring / disqualification of ineligible candidates at any stage.

9. If any prospective candidate has any issue/suggestion, the same can be submitted to the Gazetted Section of this office by **25.01.2019**, which will be examined with reference to extant rules. Any representation received after **25.01.2019** will not be acted upon.

**The notification is also available in S E C Railway's web site.[http\\www.secr.indian railways.gov.in](http://www.secr.indianrailways.gov.in).**

Please acknowledge receipt

**ANNEXURE "B"**

**PROFORMA FOR IDENTITY SLIP**

Certified that the Identity of Shri/Smt. .... Designation ..... P.F.No....., who is a candidate for the AEN/AXEN (Group 'B') Examination against 30% LDCE quota, in terms of Notification No. P-HQ/CON/452/1/E/10 Dated 15.01.2019 has been verified. His /Her signature is attested below.

(Signature of the Controlling Officer/  
Supervisor with Office Seal)

(Signature of the Candidate)

ATTESTED

Countersignature of the APO/DPO/WPO  
(Name ----- )

(Signature of the Controlling Officer/  
Supervisor with Office Seal)

**N.B**

1. The signature of controlling officer/ Supervisor should be in his own name and designation with office seal.
2. No cognizance will be given if the signature is by any one on behalf of the controlling officer/ supervisor.
3. It is the personal responsibility of the candidate to carry necessary proof to prove his identity in examination hall by presenting proper identity slip as per proforma to satisfy the officer in charge/ invigilating officer
4. In case nothing is produced by the candidate, the officer in charge/ invigilating officer is to satisfy himself about the proper identity of the candidate and suitable record for the same is to be kept, otherwise he is to be debarred from sitting for the examination.

\*\*\*\*

**Release Memo to be appended below**

**Sub- Release Memo**

It is certified that (Shri/Smt).....working under ..... attended written examination to the Group "B" post of AEN/AXEN against 30% LDCE quota of Civil Engineering department, held on 03.02.2019 at South East Central Railway Mixed Higher Secondary School No.01,Bilaspur , is released after completion of examination on date for further duty.

For Principal Chief Personnel Officer

**Syllabus for professional papers (Revised) for 30% LDCE for Promotion to Gr “B” post of AEN in Civil Engineering Department****Paper-1**

<b>Maximum Marks: 150</b>		<b>Qualifying Marks: 90</b>
<b>General</b>	<b>Part-I</b>	<b>50 Marks</b>
<b>I. General Knowledge</b>		
<b>II. Official Language</b>		
	<b>Part-II</b>	
<b>Professional Subject</b>		<b>100 Marks</b>

**Civil Engineering (General)****1. Surveying.****(a) Types.****i) Chain and Compass Survey-**

Basic principles, base lines, check lines, tick lines, perpendicular and oblique offsets, conventional signs, plotting of survey, true and magnetic bearings, open and close traverses, recoding plotting of traverse, closing errors.

**ii) Plane Table Survey-**

Techniques of using Distomat and total stations, Method of setting layouts & curves using these equipments.

**iii) Levelling-**

Level Lines-datum, bench marks, simple levelling, fly levelling, recording the levels in field book, method of reducing levels, arithmetical check, longitudinal and cross-section contouring.

**iv) Theodolite Survey-**

Types of theodolites, measurement of horizontal angles, vertical angles, magnetic bearings and deflection angles, prolonging a straight line, traversing by method of included angles, balancing the survey, closing errors, calculation of latitude and departure, use of theodolite as a tachometer.

**v) Curves-**

Elements of simple circular curve, setting out simple circular curves, different methods.

**vi) Set out works-**

Setting out buildings, culverts, central line of Railway alignment. Usage of GPS technology in setting out Centre Line of Railway alignments.

**(b) Care & Custody of Survey Instruments-**

Handling of instruments-Transport and protection, permanent adjustments, repairs and periodical overhaul.

**2. Strength of Materials, Structural Designs & Drawings-****(a) Strength of Materials-**

Stress, strain, Hooke's Law, working stress, factor of safety, bending moment and shear force in simply supported beams, influence lines for bending moment and shear force in statically determinate beams, short columns, long columns-empirical formulae.

**(b) Structural Designs & Drawings-****i) Steel Structures-**

Riveted and welded joints, tension and compression members, plate girders, connections, IRS Code of Practice for Steel Structures, sketching of connection details.

**ii) RCC Structures-**

Slab-Single and 2-way reinforced, beams rectangular, T and Doubly reinforced, Bending shear reinforcement, design of columns, footings, IRS Code of Practice for RCC structures, sketching of RCC details of simple structures. Use of computer aided softwares such as STAD, FEM etc. Basic requirements for usage of these computerised software.

### **3. Construction materials**

Description, specification, properties and uses of building materials-Stones, sand, timber, bricks, cement, lime, building hardware, paints, varnishes, glasses, tiles.

### **4. Foundation and Construction Engineering-**

#### **(a) Soil Mechanics-**

Elements of Soil Mechanics-Physical properties of soils, compaction, field methods of compaction; stabilization of soils, safe-bearing capacity of soils; determination of safe bearing capacity: earth pressure; plate loading test, specifications and construction of earthwork in embankments & cuttings..

#### **(b) Foundation Engineering-**

Functions of foundations, different types of foundations, settlement of foundations; methods of reducing differential settlements, pile foundations; well foundations for bridges.

#### **(c) Buildings-**

Brick and stone masonry, construction details- roofs, floors, staircases, joinery, scaffolding.

#### **(d) Reinforced & Prestressed Concrete-**

Bending and placing of reinforcement; fine and coarse aggregates; Concrete mixing, laying and compaction, finishing of R C C surfaces, formwork, curing testing.

#### **(e) Steel Structures-**

Standard rolled sections; fabrication-templating, straightening, drilling, riveting, bolting and welding; matchmaking; trial erections testing, site erections- equipment, methods.

#### **(f) Construction Machinery & Equipment-**

Drilling and blasting equipment for quarrying, tunneling and excavation in rock pile hammers and pile-driving equipment; pumps, concrete mixers, vibrators, grouting equipment, air compressors, pneumatic tools and different types of cranes.

**(g)** Types of cracks in buildings. Causes and prevention techniques avoiding cracks in the buildings.

### **5. Hydraulics & Hydrology-**

#### **(a) Hydraulics-**

Elements of hydraulics- Open channel flow; flow in pipes, frictional loss, empirical formulae.

#### **(b) Hydrology-**

Rainfall and run-off rainfall statistics; rain gauges, run of calculations by empirical methods, flood discharge estimation; measurement of flood discharge-current meter.

#### **(c) Hydraulic Structures-**

Design of bridges- alignment, number of spans, economic spans; waterway calculations, scour depth afflux; clearance, depth of foundations, Box and Pipe Culverts, river training Works-spurs, groynes, aprons, levees.

### **6. Public Health Engineering-**

#### **a) Water Supply-**

i) Quality of water-physical, chemical and bacteriological standards of water, water-borne diseases; water demand-methods of forecasting; sources of water; treatment of water- aeration sedimentation, filtration(slow and rapid sand filters); disinfection, hardness-.Methods of removal.

#### **ii) Conveyance and Distribution:-**

Pumping equipment, rising mains, systems of distribution, residual pressures, different types of pipes and fittings, testing of pipes.

(iii) Planning & design of layouts for rain water drains. Principles of rain water harvesting, methods, estimation of capacity of rain water harvesting pits/salient etc.

#### **(b) Sewerage:-**

Sewerage; waste water-collection and carriage; design and sewers; house connections: storm water drains: disposal of sewage- river pollution and control; sewage treatment; land Irrigation septic tanks, primary clarifiers, sludge and scum removal, trickling filters, activated sludge process, sludge digesting, principles of anaerobic digestion, sludge gas, sludge drying and disposal.

**Paper-II**

<b>Maximum Marks: 150</b>	<b>Qualifying Marks: 90</b>
<b><u>Part-I</u></b>	
<b>Establishment &amp; Financial Rules</b>	<b>50 Marks</b>
<b><u>Part-II</u></b>	
<b>Professional Subject</b>	<b>100 Marks</b>

**Civil Engineering (Railways)**

**1. Railway Surveys & Construction:-**

Classification of surveys; principles governing location; gradients; compensation for curves; vertical curves; hill surveys: catch sidings; tunnels; preparation of drawings; design of large bridges; progress reports on surveys; project estimates; standards of construction: junction arrangements, project report, preliminary arrangement for construction of new lines; letting out contracts; programme work; critical path networks, execution of work and measurements reports: completion works.

**2. Railway Track:-**

Description, specifications and functions of the structure elements; Rails, sleepers, fastening ballast, formation and other sub-structures: points and crossings; geometry and design features Track layouts.

**3. Maintenance of Permanent Way:-**

**a) Duties:-**

Duties of Assistant Engineers; duties of Permanent Way Inspectors; duties of Works Inspectors: duties of Bridge Inspectors; duties of Mates, Keymen and Gangmen.

**b) Maintenance of Permanent Way:-**

Methods of maintenance, Beater packing, Measured Shovel packing, Machine packing, Systems of maintenance, overhauling systematic through packing, picking up slacks, Directed Track Maintenance, Miscellaneous works, lifting and lowering of track, screening of ballast, Maintenance of drains, lubrication of rail joints, adjustment of creep, maintenance of level crossings, maintenance of points and crossings;

**c) Special Maintenance Works:-**

Maintenance of short welded rails, long welded and continuous welded rails, Maintenance of electrified section, special precautions, Maintenance of track circuited sections, special precautions.

d) Maintenance of curved track and realignment of curves, Curvature, transitions, super elevation of curves, safe speeds, cant deficiency, speed on curves with turnouts, Realignments of curves, method.

e) Testing of track with track recording car, frequency based on category, OMS frequency and category, interpretation of track recording charts, analysis of the charts to improve track parameters. The allowable limits of parameters category-wise, attention to track defects etc.

f) Heavy axle traffic and different types, precautions and checks to ensure safety of track and bridges.

g) Maintenance and working of various track machines.

h) Formation treatment works for Railway embankments-various methods, advantages and disadvantages of the methods.

**4. Maintenance of Bridges:-**

**Inspection of Bridges:-**

Records of Inspection; details of bridge Inspections works connected with maintenance of bridges, laying of bridge sleepers, replacing cracked bed blocks; painting of steelwork.

**5. Inspection and Maintenance of Tunnels:-**

**Inspection of Tunnels:** Records of inspection, equipment for inspection, details of tunnel inspection, works connected with maintenance of tunnels.

## **6. Inspection and maintenance of turntables and weigh-bridge pits:-**

Condition for satisfactory working of turntables, adjustments and overhauling of turntables, inspection and maintenance, erection and dismantling of turntables, weighbridge pits and approaches-responsibility of engineering staff, drainage of weighbridge pits, construction of new weighbridges.

a) **Inspection and maintenance of weigh-bridge pits:-** Inspection and maintenance of weigh-bridge pits, drainage on weigh bridge pits and construction of new weigh bridges etc.

b) **Track Maintenance System:-** Salient features, pre-requisites for introducing TMS in division, advantage of TMS etc.

c) **Mobility Index:-** Concept, principles, methods of evaluation etc.

## **7. Inspection & Maintenance of buildings and structures other than bridges:-**

General instructions, additions and alterations to quarters, transfer of buildings registers, scale of accommodation and other facilities; vacant railway buildings, maintenance of buildings" inspection and repairs, petty repair books, periodical inspections, details of inspections, maintenance aspects of cracked buildings and repairs to the existing cracks.

## **8. Maintenance of sanitary and hygienic conditions in station yards and railway colonies, water supply, drainage and sewerage:-**

### **a) Sanitation:-**

Formation of sanitation committee, inspection by sanitation committee, sanitary arrangements in stations and colonies, drinking water wells-protection, Cleaning of wells, disinfection, prevention of infectious diseases, disinfection of quarters.

### **b) Water Supply:-**

Source of water supply; water sample analysis; open wells-sizes, pumping capacity, improving yield; shallow tube wells; deep tube wells; impounding reservoirs: storage capacity; flood discharge, record of water levels in wells; rainfall registers; high level storage tanks; precaution against pollution; pumps-types, selection, installation; aqueducts and pipelines.-types, selection, laying, estimating requirements of water; layout of distribution systems; water supply from outside sources; maintenance and operation of water supply installation - responsibilities of Engineering department and Mechanical department.

### **c) Drainage and Sewerage:-**

Drainage system, waterborne sewerage; sizes of sewers, sewage treatment systems, sewage disposals, sewage purification systems, surface drainage-layout, size of drains, disposal of sullage effluent, drainage of latrines, maintenance of sewerage and drainage systems, maintenance of open sullage drains, storm water drains, house connections, conservancy and sanitary arrangements, responsibilities of engineering staff.

## **9. Acquisition, management and disposal of land:-**

### **General Code rules:**

Ownership of railway land, sanctioning authority for acquisition and relinquishment, principles for acquisition and relinquishment, procedure for acquisition and relinquishment plans and schedules, taking over and handing over demarcation of boundaries, land records- demarcation and verification of railway boundaries, maintenance of rights of way, religious structures, management of railway land-leasing of licensing lease or licence of land, merchants and vendors at stations, bulk oil installations, natural products and grazing, constructions of buildings near railway land, sale of natural products, felling of trees-within railway land, outside railway land, felling of trees near electric or telegraph wires.

## **10. Large Scale Permanent Way renewals:-**

Classification of routes and tracks; track renewal programmes, factors governing permanent way renewal; preparation for relaying, preliminary work; systematic operation for complete relaying, speed restrictions to be observed during relaying post relaying work; classification and disposal of released materials.

### **11. Rehabilitation of Bridges:-**

Precautions when working on bridges; rebuilding or alterations to bridges- design and execution of bridge works: temporary arrangements, false work for erection of girders, assembly and erection of girders, cranes for erection of girders, testing of girders; proposals for strengthening existing girder spans; methods of regirding major bridges.

### **12. Works affecting railway safety and opening new works:-**

General- Reference to rules: works requiring sanction of the ACRS and notice thereof; application to the ACRS-execution of works and Safety certificates, documents to accompany application; submission of Safety Certificate; deviations from plans approved by ACRS; applications for running of new types of locomotives and/or rolling stock and for increase in speed, notification to railway officials when opening works, works resulting from accidents, opening of new lines, infringement to Schedule of Dimensions-condonation, procedure thereof, movement of ODCs-types of procedure for sanction for movement, precautions during movements.

### **13. Railway Operation:-**

**a) General-** Reference to G & S.R., types of signals and their significance, rules for working of trains, block working rules-types, introduction of temporary single line working.

#### **b) Engineering restrictions and indicators:-**

General- Definitions:- Responsibility of the Inspector incharge, works of short duration; protection of line in block section and procedure for passing trains, works of long duration, temporary engineering fixed signals, arrangements prior to commencement of work; protection in block section for speed restrictions: procedure for blocking lines for engineering purposes; works at times of poor visibility, temporary signals in emergency; periodical notices of engineering restrictions, permanent speed restriction indicators, review of permanent speed restrictions, indicators- General.

#### **c) Level Crossings:-**

General:- Classification, Standard Specifications, normal position of gates: level crossing equipment, traffic and engineering gates; siding gate lodges; appointment of gatemen; duties of gatemen, maintenance of level crossings; examination of gate equipment and gatemen in rules, level crossing register, road traffic census, manning/demanning of level crossings.

#### **d) Working of Trolleys:-**

General instructions - rules for working; distinction between trolleys, lorries and motor trolleys; Certificate of competency; officials permitted to use trolleys and lorries, responsibility for safe working; working at night or in bad weather; working on track circuited sections; conveyance of non-railway officials; trolley permits for private sidings; trolley refuges; protection; equipment on trolleys, and lorries; working of trolleys and lorries; in block sections in station limits.

#### **e) Ballast and material trains:-**

General Rules for working Restrictions in running; ordering of ballast trains; issue of "fit to run" Certificate; equipment; testing of brake power, working in block sections; running on Ghat section; loading and unloading from hopper wagons, planning of ballast and material train movements: training out materials and daily reports of ballast train working, charges for ballast trains, register of engineering vehicles.

### **14. Accidents:-**

General-Observance of rules, intimation of accidents by station masters, duties and responsibilities of the engineering officials in the event of accident impairing through traffic action at site, reporting details of accident-provisions of Accident Manual, action in case of derailments, examination of site and preparation of sketches, recording track and rolling stock measurements- accident procedure, use of recorded data, restoration of through running, procurement and arrangement of labour and equipment, temporary arrangements at site of accident, transshipment, funds required during emergencies, attendance of police at accidents, driver's reports on defects in track, action on receipt of reports of defective track, abnormal occurrence attributable to oscillation of locomotives, accidents not impairing through traffic, records of accidents.

## **15. Rivers & Floods, pre-monsoon precautionary measures and patrolling of Railway line:-**

**a) Rivers and Floods:-** General-behavior of rivers, watchmen at important bridges, pitching stone and boulder reserve, vigilance during floods, flood records, survey of the course of river, river protection works, types, design, repairs and maintenance records-rivers and floods.

**b) Pre-monsoon precautionary measures:-** Vulnerable sections, materials for anticipated emergencies, monsoon emergency rakes, equipment tools, rail clusters, temporary bridge spans, protective works, railway affecting tanks, inspection and vigilance over railway affecting tanks, pre-monsoon, during monsoon.

**c) Monsoon and emergency patrol:-** Kinds of patrolling, keymen's daily Patrol, gang patrol during abnormal rain, systematic night patrolling during monsoon, stationary watchmen at vulnerable points, review of patrolling systems and vulnerable locations, security patrolling during civil disorders, protection of line in emergency, duties of patrolmen and their equipment, reporting damage & obstruction on track to Station Masters, check over patrolling, inspection of equipment, surprise checking at night.

## **16. Preparation of plans and estimates:-**

**Preparation of plans-** General procedure; plan for other departments; sizes of drawings, titles and numbering of drawings; scale of drawings; details on drawings; symbols and colours of drawings; Railway Board drawings; plans issued by the Chief Engineer's office; plans in Divisional/Assistant Engineer's/Inspector's offices; completion drawings; care and filing of tracings; preparations of estimates-Code rules, technical details, rates and quantities, schedule of rates and price- listing of stores: report - and justification; rent statement for staff quarters; special features of estimates; remodeling of station yards, track renewal works, deposit works; Urgency Certificate; Supplementary Estimates.

## **17. Contracts and Execution of works:-**

**a) Contracts:-** General - Code reference for contracts; lists of approved contractors and registration of applications; Schedule of Rates; Analysis, non-scheduled rates, special rates; tenders, procedure, tender documents, drawings and specifications, tender committees, acceptance of tenders, contracts; procedure, contract documents, General and special conditions of contract; loan of tools and plant to contractors: issue of departmental materials to contractors; lease or licence of railways quarries; measurements and measurement books – code reference; recording measurements; 'on account, measurements; standard measurements; responsibilities of Inspectors and Assistant Engineers for measurement of works; ballast measurements; computation of quantities; preparation of abstracts in measurement books; submission of bills; checking of-bills, bill registers; disputes with contractors.

## **b) Execution of works:-**

General instructions- Code rules; agencies for executing works responsibilities of executive officers; deposit works; excess and savings on estimates, attention to public interests, prevention of accidents; religious edifices and archaeological remains, provision of lightening Conductors, planning - critical path net works, PERT; departmental execution off work- record; progress reports, charges for stores and labour, execution of works in Engineering workshops, contracted works, issue of Work Orders; completion documents; works pertaining to other departments.

## **18. Miscellaneous:**

### **a) Engineering plant:-**

General-code rules, engineering plant reserve, plant register, valuation of plant, maintenance, storage and repairs, requisitioning of plant, use of plant at site, maintenance of log books, hiring out of engineering plant, examination of boilers of the Engineering Department.

### **b) Explosives:-**

General- Issues of instructions on use of explosives, observance of rule carriage of explosives, commonly used explosives, selection of explosives, storage and conveyance to work site, blasting operation, boring holes, amount of charge, preparation charge, electrical and safety fuses, precaution to be observed during blasting, misfires, protection to trains and railway property, destruction of

explosives, detonating signals-care and custody, use of detonators and test.

**c) Management of Engineering Stores:-**

General-Reference to Code Rules, procurement of stores-requisition, acknowledgement of receipt claims for short receipts, etc., custody of stores- classification, handling and storage, Account heads of stores-operation, records and returns, disposal of released and surplus stores-return to Stores Depot, disposal by auction, verification of stocks and adjustment for shortages/excesses.

**d) Law and Order:-**

Railway police, loading complaints, co-operation with railway police, cognizable offences, non-cognisable offences, powers of arrests by railway staff, warrant against railway staff, action by railway staff in cases of attempted sabotage, answering of Court Summons, prevention of trespass, disposal of human bodies found run over, disposal of cattle found dead on the line.

**19. Model Syllabus for Track Machines portion.**

- (i) Provision of Indian Railway Track Machines Manual.
- (ii) Working principles and performance parameters of various Track Machines on IR.
- (iii) Engines: Classification of IC engines, basic terminology, working principles of IC engines, main systems of diesel engines: air supply system, fuel systems, lubricating system, cooling system.
- (iv) Controls and working systems of various Track Machines.
- (v) Working of various Track Machines: Pre-requisites, pre-lock preparatory works, operations during block, post –block attention works.
- (vi) Working of tamping machines in design mode.
- (vii) Performance and quality parameters in tamping, squeezing pressure, squeezing time, vibration pressure and tamping depth.
- (viii) Maintenance schedules of various track machines.
- (ix) Troubleshooting.
- (x). Rules for movement and working of track machines

**NB: 15 marks out of a total of 150 marks should be set apart for questions on Official Language Policy and Official Language Rules should be included in the paper on General Knowledge i.e Paper-I. However, attempting these questions will not be mandatory.**
