No.PCSO/Safety/Safety Circular/163

Date: 13.04.2022

Zonal Safety Circular No.-02/2022

SUB: SAFETY PRECAUTIONS WHILE WORKING ON TSS/SP/SSP.

1. No work shall be done above or within a distance of 2 meters from the live wire without a "Permit to Work".
2. The continuity of the cable connection between the top clamp and the earthing clamp should be checked once a fortnight. The cable of earth pole should be renewed if more than 20% strands are broken.
3. The cable of earth pole shall be flexible and should have adequate cross-section 40 mm² so as to withstand short circuit currents.
4. After obtaining Permit to Work (PTW) from TPC, ensure that power supply of concerned equipment/ circuit is switched off and earthed.
5. Equipment should be on local mode at control panel/mechanism box.
6. Caution tag shall be provided on local/ remote switch at control panel of concerned equipment on which work to be carried out.
7. Ensure that equipment is in 'OFF' condition before commencing the work.
8. Equipment must be earthed before commencing the work.
9. Red banner flag/Danger board shall be provided on other live equipment or mast in the vicinity of the equipment to be maintained.
10. Always carry the ladder/lengthy object in down position in switching yard.
11. Do not leave any tool/ material on/in the equipment after completion of work.
12. Do not support the ladder on insulator/ equipment while working
13. A ladder should be held by one person on the ground to prevent slipping of ladder.
14. More than one person shall not normally be allowed on a ladder as far as possible.
15. Climbing on a ladder with wet or slippery foot wear is forbidden.

Hindi Version will follow.
