PREFACE

The Zonal Disaster Management Plan part-II, 2023 of South East Central Railway has been prepared as per Railway Board's guidelines to enable the Railway to muster resources, including those of the adjacent divisions and Zone and also of Government and non-Government organizations in the event of a disaster.

Disaster Management as a subject essentially deals with effective management of information and seamless coordination of resources. Disaster at the organizational level deals with issues of planning, coordination, communication and risk management.

The book contains names and contact numbers of all important resources required during management of any disaster/train accident. The Zonal Disaster Management Plan should be read in conjunction with General & Subsidiary Rules, Accident Manual and other instructions issued from time to time.
